On Friday evening started the weekend event Awakening into Oneness` with Arjuna Ardagh in Munich. People from everywhere from Germany and a few women from Austria attended there. Amongst 50 participants had assisted 13 Deeksha giver, this one was trained in India at the Oneness University, when Arjuna had guided into self-realisation and satisfied the natural longings from spiritual seekers of reality and truth.

According to the human evolution his teaching and the process of waking up starts, where we stand from there today. Everybody felt to choose the way of the courage freely, and the personal responsibility took on itself. Role plays with partners has helped to recognize who or what we are:

"Why are you here?"

"Who or what experience this moment?"

"Who or what is there?"

After recognizing the interfering of conceptual thoughts, innocence could take place and all separateness of the world disappeared. Unity happened!

Incredible simple questions let the people experience their true nature, to be present, within a few minutes, supported by Deeksha energy transfers.

Carefully and mastering the questions Arjuna demonstrated how living essence training is capable to dissolve psychological and energetic blockades in a couple of minutes.

Self-inquiry which help out of sufferings from human relationships and daily situations of life, to cut off the energetic frequencies, and losing conditioned pattern.

Arjuna has this kind ability to build a lovely atmosphere. His unique humor and his jokes help people to relax even if their psychological struggles and sufferings are arising.

With his methods and technology the mankind is capable to feel limitless consciousness and breakthroughs into cosmic unity and oneness. Freedom, love, inner harmony and peace are the natural gifts and presents of the universe for humanity.

I certainly can recommend every seeker to visiting his seminars and taking a deep sip of self-realisation, and feel the connection between our mind and heart. Experiencing the energy of awakening.

My wife Sophia and I are grateful for this major part good experience this weekend
